March 10, 2006

Good Things are Happening in Sedona!

Roadway paving on Jordan Road is complete and the road will be open by Saturday, March 11.

The final portion of the crosswalk across Jordan Road will be completed during the week of March 13. We anticipate no further full width closures of Jordan Road until the final phase of work on SR 89A next fall. Irrigation and landscaping will also be complete in the construction zones before Spring Break. Tiffany Construction will be determining the location of underground utilities on the south side of SR 89A between Forest Road and Jordan Road area for a couple of weeks beginning March 13. They will be using ground-penetrating radar, which will provide general locations. This procedure may require additional follow up with potholing to expose the utility, if required. Potholing involves limited excavation to expose utilities lines and determine their exact location. There may be short periods when parking and access will be disrupted.

Tiffany Construction is planning to stop general construction for Spring Break on Friday, March 17 until Sunday, April 30, except for some potholing activities addressed above on SR 89A during the week of March 20.

City staff and representatives from Tiffany Construction, the City's contractor, will hold the next update meeting for anyone interested in the project on Friday, March 17 at 8:00 a.m. at the Wayside Chapel. Possible topics for discussion at this meeting include, incremental project landscaping and design input for a roundabout at the north end of Uptown.

Shepard-Westnitzer, a local firm hired by the City of Sedona, and City staff will present the conceptual design of improvements along SR 89A extending from in front of the Wayside Chapel north to a roundabout located north of the La Vista Motel. Staff is seeking public input and comment on the conceptual plans, which include changes in parking, a revised driveway to the properties just west of the Wayside Chapel, sidewalk, new retaining walls and traffic changes on SR 89A due to the roundabout. Drawings will also be available for viewing at this meeting.

Future update meetings will be held Friday, April 7 and Friday, April 28 at 8:00 a.m. at the Wayside Chapel.
